their intention to support the revolution which brought the existing ministry into power, at all hazards. The Queen assigned indisposition as her reason for not receiving the deputation, but this was considered only a pretext. A change of ministers has no doubt taken place.

The ministers were fortifying Lisbon, but it was not expected that any serious resistance would be made to the insurgents.

Italy .- A complete gang of thieves has just been discovered at Rome, all the members of which belong to noble families, and several of them are even serving in the Pope's body guard. They were most of them looked upon as persons of more than ordinary piety. Countess Compagnoni, of Macerata, was the first to denounce their proceedings. Among those already arrested are, Count Dienisi da Treja and the Countess Angellucci da Treja. At their houses recognised as stolen property.

The commission appointed by the King of Hanover to inquire whether he possessed the power to abrogate the constitution of his kingdom, has decided against him. It was composed of five members, men dependent on the crown and attached to arbitrary principles.

NEW YORK .- We learn from the N. York papers, that business is reviving in that city, ness will be done by the merchants. The hotels are full, and all things indicate a return to prosperity.

NEW-ORLEANS .- The yellow fever rages in New-Orleans to a great extent, if we may judge from the papers of that City. Emigrants are daily arriving in great numbers, from New-York and elsewhere, who are fit subjects for the prevailing epidemic. It is recommended that the Mayor assume the responsibility of sending these infatuated emigrants across the Lake, or to some other place at a safe distance from the City. The Bulletin says, "the burden of watching, nursing, and perhaps burying so many human beings, would be no small tax to this by their attention to the sick."

INDIAN AFFAIRS.

inst. gives an account of the capture of two Indian Chiefs, Phillip and Uchee Billy. The former was captured near the head of the Tomako, at Dunlawton, with several women and children, without bloodshed. The account continues :- " The Indian with Philip known as Tomoka John, offered to escort the party to the Uchee camp about ten miles off .- They took him at his word, and after a most fatiguing and circuitous march, came upon their fires early in the evening, halted about a mile from them until after midnight, when they carefully advanced and completely surrounded them. From the barking of their dogs however, and the fact that their fires were extinguished, the Indians must have suspected that all was not right. At the dawn of day on Sunday, a charge was made by the whole force in two divisions commanded by Lieuts. Peyton and McNiell. The Indians were on the alert and gave one discharge of their rifles, by which Lt. McNiell was unfortunately mortally wounded. Some little firing took place, by which two Indians were killed and two or three wounded. The whole party consisting of Uchee Billy, his brother Jack, 3 warriors, and a number of women and childuring the night; but without time or opportunity to give the alarm."

MELANCHOLY DISASTER .- The British Barque Ida, Capt. Arthur, from Kingston. Jamaica, bound to London, experienced a severe hurricane in the Gulf, on the 3rd inst., and twenty-of the crew were washed off the deck and lost.

MAINE ELECTION.

The Whig candidate (Kent,) is elected in Maine, it is believed, by 1,000 majority .-This result is not brought about by any loss in the ranks of the democratic party, but by an unprecedented gain in the whig ranks .-The whig vote last year in 261 towns was 20,216; this year it is 31,000. The Van Buren vote last year was 26,876; this year it is 29,330-showing a gain on both sides.-What has been lost in Maine is made up in Vermont. In 1834, the whig majority in

PRESBYTERY OF FAYETTEVILLE.

The last General Assembly's measures of reform were highly approved; and a series of resolutions, pledging for those measures the support of the Presbytery, were almost unanimously adopted-there being 33 members present, and only one tion was also adopted, condemning the present course of the Southern Religious Telegraph, and recommending the "Watchman Churches.

The Roanoke Presbytery also closed its Fall Session last Saturday evening, at Louisburg. This body, we learn, was sembly.—Star.

THE STATE BANKS. Is it not strange, that while the best re publicans of this country have for years been using their best exertions to put down the Bank of the United States, and preventing the establishment of another in its place, that so little has been said and done against the creation of State Banks. Those who have so justly feared the great political power of the Bank of the U. States. must now know that the State Banks are equally to be feared; that they are as ini-United States could be. They must now see that since the Bank of the U. States has been put down, and the State Banks called to the aid of the general govern ment, in the management of the public were found a great number of watches, snuff money, that they have brought in the parboxes, jewels, &c. many of which have been tizan troops of the enemy. Look at the conduct of the State Banks, when the country got into difficulties a few months

ago, brought on it by the merchants of N. York. Did they do any thing to benefit the country or the government? No-exactly the reverse. Their foundation is the superflux of money which has been obtained by the wealthy, from the labor of the working classes, and which renders the owners jealous of the people in whose hands the constitution has placed all political power. The speculators who James Davis, in the 60th year of his age. place capital in Banks, and then turn round and borrow it out again, as they ive by depredation upon honest industry, must bring into banking partnerships, a feeling still less favorable to the rights of the people, than their rich partners. Then what good can a republican government and people expect from Banks of any kind or corporations of any kind. I do not wish to be understood that I would crush the State Banks at once; they have too deep a hold on the interests of the country; they should have that State was 17,000; this year it is but fair warning and sufficient time allowed them; and if we are obliged to have Banks, let them draw in all their small notes and finally put none but large notes in circulation, and always be ready to county of Cumberland, last week.
